5.50

UCEAP Semester Units

3.70

Course Description

China's rise has been one of the defining issues of contemporary world history. Examine this transformation in global affairs from both outside-in and inside-out perspectives. This course explores how China has shaped, and been shaped by, its encounters with the international order, from the Qing Empire to the present. Taking a multidisciplinary approach, this course brings together research from history, international relations, and international political economy.

Language(s) of Instruction

English
