

# COURSE DETAIL

## INTRODUCTION TO PYTHON PROGRMMING

**Country**

Japan

**Host Institution**

Waseda University

**Program(s)**

Waseda University

**UCEAP Course Level**

Lower Division

**UCEAP Subject Area(s)**

Computer Science

**UCEAP Course Number**

70

**UCEAP Course Suffix****UCEAP Official Title**

INTRODUCTION TO PYTHON PROGRMMING

**UCEAP Transcript Title**

PYTHON PROGRMMING

**UCEAP Quarter Units**

3.00

**UCEAP Semester Units**

2.00

## Course Description

This course teaches the basics of programming as part of the field of informatics. Programming is used in many areas today, such as software development, automation, and data analysis, so understanding its fundamentals is very important. This course discusses algorithms, data structures, and control flow, and provides opportunities to practice coding, debugging, and basic software design. The course aims to build a solid foundation in programming that supports future learning and career growth.

### Language(s) of Instruction

Japanese

### Host Institution Course Number

INFN105L

### Host Institution Course Title

INTRODUCTION TO PYTHON PROGRAMMING

### Host Institution Course Details
