## Course Description

This course introduces students to three major ethical theories' utilitarianism, Kant's deontology, and virtue ethics. Additional topics include the ethical principles underlying academic integrity, research ethics, and intellectual property. Students examine issues related to the ethics of environmental sustainability and conservation and are challenged apply the ethical theories learned to concrete moral problems, including world poverty, corporate accountability and whistleblowing, and workplace discrimination. This course is graded on a pass/fail basis only.
