4.00

**UCEAP Semester Units**

2.70

## Course Description

This course focuses on ancient Mexican art throughout Mesoamerica and its diverse regions. In ancient Mexico, works of art played a particularly important role in the diverse rituals associated with the earth, the underworld, and death, but also with fertility and political power. By associating works of art with their archaeological context and original ritual function, the course introduces students to the wealth of information that the study of artistic works offers.
