Course Description

This course focuses on the institutions of the European Union. At the same time, this course provides an opportunity for students to be exposed to legal thinking. Law is central to the process of European integration, and it plays a greater role in European affairs than it does at national or international level. It is accordingly essential for students to become familiar with the ways of legal thought and legal reasoning, if they want to understand fully the European integration process, and European matters more generally.

Prerequisites: SSC1007 Introduction to Law and Legal Reasoning and at least one of the following courses: SSC2060 Comparative Constitutional Law (SSC2012 Comparative Government) or SSC2024 International Law.
