4.50

UCEAP Semester Units

3.00

Course Description

This seminar discusses how writers from different times and places have reacted to upheaval in different ways and examining the space where personal storytelling and political intent intertwine. It analyzes how the personal circumstances of those writers influence their respective writing, to gain clues as to how students' own individual conditions interact with their writing. Topics include how can fiction capture the turbulence of its times and can the world of fiction make sense of the complex causes of anger arising from sociopolitical change?
