SEMINAR: FORENSIC NEUROSCIENCE

UCEAP Transcript Title

FORENSIC NEUROSCIEN

UCEAP Quarter Units

4.50

UCEAP Semester Units

3.00

Course Description

This seminar functions as a collaborative lab meeting in which weekly progress updates and group brainstorming sessions shape the core activities. Sessions consist entirely of peer-led presentations rather than formal lectures. Approximately half of the presentations address topics in forensics, while the remainder explore diverse areas of cognitive neuroscience such as auditory perception, visual illusions, and memory. Presentation topics are selected by individual presenters, so the content varies widely and may extend beyond the scope of forensic neuroscience.

Language(s) of Instruction
