Course Description

Through the study of this course, students can grasp the basic views of Marxism as a whole. Furthermore, based on Marxist philosophy, they can understand the general development laws of the capitalist economy, recognize the historical necessity of socialism replacing capitalism, and strengthen their communist ideals and beliefs. They can form a scientific world view, outlook on life, and values, and consciously devote themselves to the great practice of socialism with Chinese characteristics. It conducts education on a scientific world view, outlook on life, and values for students, and cultivates their scientific ability and thinking methods for analyzing and solving problems.
