UCEAP Transcript Title MACROECN PLCY CHLNG
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

The course provides students with a solid understanding of how the economy functions at the aggregate level, equipping them with the analytical tools needed to interpret and evaluate macroeconomic conditions and policy decisions. By combining theoretical frameworks with real-world applications, the course develops students' ability to analyze contemporary macroeconomic developments from both national and international perspectives. Particular emphasis is placed on the role and effectiveness of fiscal, monetary, structural, and trade policies in addressing macroeconomic challenges, stabilizing economic fluctuations and fostering sustainable growth. The course strengthens students’ capacity to critically assess macroeconomic policies and their broader implications, skills essential for careers in economics, policymaking, finance, and international business. Prerequisites: The knowledge of the basic concepts covered in an introductory Microeconomics course is strongly recommended. The course also makes regular use of elementary mathematical tools and graphical analysis.

Language(s) of Instruction
