Course Description

This course is for students at advanced levels C1+ (with at least two semesters completed in C1) and C2. It focuses on improving linguistic tools for oral expression. The course promotes, consolidates, and perfects oral practice in Spanish based on specific cases and situations. To this end, a series of activities are carried out to develop this communicative competence. It enhances fluency, grammatical and lexical correctness, semantic precision, and pronunciation, all while taking into account the needs and expectations of the students. The basics of discourse analysis are used and the uses and strategies of debate are promoted. Each oral expression process is adapted to the context of speech (registers and context).
