3.00

**UCEAP Semester Units**

2.00

## Course Description

This course examines theories and concepts related to political development in Southeast Asia, focusing on the factors that explain variations in political, economic, and social progress across the region. Weekly themes highlight different countries, exploring influences such as colonialism, economic development, ethnic identity, religion, and culture. The course also addresses key questions, including why some nations democratize while others do not, the challenges of democratic consolidation, and the processes of autocratization in Southeast Asia.
