UCEAP Transcript Title VOCAL HEALING
UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description

The Vocal Healing Course is designed to teach active healing methods. Vocal healing greatly benefits human body both physically and spiritually through vocal training methods, which focus on breathing techniques, resonance adjustments, and vocal frequency vibrations, and through auditory guidance in music. This nonverbal form of communication can reach deep into people's emotional core. Some healing techniques can even “massage” the body’s internal organs in ways that are difficult to replicate with other healing approaches.
