**UCEAP Semester Units**

5.30

## Course Description

This course examines major organizational theories to critically explore organization in contemporary society. The interdisciplinary field of organization studies draws on concepts and theories from disciplines such as economics, sociology, psychology, anthropology, and history. This course introduces students to a variety of perspectives on organizations. When brought together these perspectives allow students to construct a multifaceted picture of the powerful socioeconomic-systems that shape modern society: enhancing their conceptualizations of responsible enterprise and developing their critical thinking skills.
