FUND COGN NEUROSC

**UCEAP Quarter Units**

4.00

**UCEAP Semester Units**

2.70

## Course Description

In Fundamental Cognitive Neuroscience, learn about these processes as well as other complex phenomena such as consciousness, brain structure, and how we change as we age. The course provides a comprehensive introduction to the subject of cognitive neuroscience and is aimed at both students and professionals in, for example, healthcare, or education. The course covers perception, attention, how memory works, emotions, higher cognitive function, communication and our view of others. All based on what we know about the brain today.
