Course Description

This course is separated into two parts, covering monetary and financial policies, and monetary policy and growth. At the end of the course, students are able to interpret the evolution of the economic situation on the basis of a plurality of macroeconomic frames, in order to use the knowledge acquired relating to the design of monetary and financial policies to maximize the usefulness of the information available, minimizing time and optimizing the use of one's energies; and better use two indispensable professional resources: logic and precision. Pre-requisites: macroeconomics and microeconomics.
