## **Course Description**

This course explores the political, economic, social, and cultural history of Central and Eastern Europe from the end of the First World War until the death of Stalin in 1953. It considers both the rise of Stalin to power in Soviet Russia and the impact of Soviet Russia on the other states of the region. Student explore the importance of Central and Eastern Europe to European development in the first half of the 20th century; the impact of geography on regional development in the first half of the 20th century; the complexity of the various ethnic groups of the region and the differences between these; the historical development of Russia and Central Europe in the first half of the 20th century; the importance of cultural development, the position of various socio-cultural groups, and the politics of gender in the region in the first half of the 20th century; and, the processes of Stalinization.
