

# COURSE DETAIL

## INTRODUCTION TO CLINICAL EXERCISE EPIDEMIOLOGY

**Country**

United Kingdom - England

**Host Institution**

King's College London

**Program(s)**

King's College London

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Health Sciences

**UCEAP Course Number**

117

**UCEAP Course Suffix****UCEAP Official Title**

INTRODUCTION TO CLINICAL EXERCISE EPIDEMIOLOGY

**UCEAP Transcript Title**

EXERCISE EPIDEMLOGY

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

## **Course Description**

The course familiarizes students with epidemiological methods to develop and test hypotheses pertaining to physical activity and health and disease outcomes at the population level. It also develops skills in designing, implementing, and evaluating interventions for improving physical activity at the population level, and provides an opportunity for in-depth analysis, critical thinking, and discussion on how epidemiological methods are used in studying physical activity behavior.

### **Language(s) of Instruction**

English

### **Host Institution Course Number**

4BBY1002

### **Host Institution Course Title**

INTRODUCTION TO CLINICAL EXERCISE EPIDEMIOLOGY

### **Host Institution Course Details**
