5.00

UCEAP Semester Units
3.30

Course Description

This course is unique in its focus on the core challenges facing our increasingly 'smart' cities, from their operational functions and planning through to management and control. The course reflects the changes that technology is making to the operation of, and our understanding of, the city, and gives students the technical and theoretical skills needed to make a difference to the cities of today and tomorrow.

Language(s) of Instruction
English
