3.00

**UCEAP Semester Units**

2.00

## Course Description

This course reviews the development of research in the field of linguistic anthropology and related academic fields, providing an overview of what aspects of language and communication reveal about society and culture. The course also explores concrete examples, sometimes including audio and video clips, to further the discussion. The course aims to gain insight into the complex and reciprocal relationships between language and society as well as language and culture.
