Course Description

This course aims at guiding students to a professional status as legal personnel. The course starts from training professional reasoning, students will learn and comprehend foundation knowledge of laws, including basic concepts, methodologies, and principles that serve as foundation for the entire legal studies system. The course cultivates students' abilities to apply the theories, methodologies, and thinking of jurisprudence to identify, analyze, and solve the actual problems. Students will establish basic legal thinking skills, literacy, and sprits and beliefs as legal personnel. Teaching will emphasize on developing students' subject consciousness, and guide them to combine in-class and extracurricular understandings to actively and independently read and think.
