DRUGS & DISEASE A

**UCEAP Transcript Title**

DRUGS & DISEASE A

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

## Course Description

The course provides students with an understanding of the pharmacological actions of a selection of the main classes of drugs in current therapeutic use. Lectures provide insight into the use of drugs in the treatment of a variety of human diseases ranging from cardiovascular and respiratory disease, through to inflammation, allergy, and pain. The drug treatment of the diseases is considered against the backdrop of the underlying disease processes, focusing primarily on the mechanisms by which the drugs bring about therapeutic relief.

## Language(s) of Instruction

English

## Host Institution Course Number

5BBM0212

## Host Institution Course Title

DRUGS & DISEASE A
