Course Description

This course teaches public finance at its introductory level. The course covers topics ranging from normative issues, such as why and how we need the government to intervene in the market economy, and how it intervenes in the economy in reality. An understanding of the recent controversy about the burden of the national debt and the fiscal situation of the Japanese central government is expected by the end of the course.

Required course prerequisite: Basic understanding of introductory microeconomics and macroeconomics.

Language(s) of Instruction

English
