6.00

UCEAP Semester Units

4.00

Course Description

The course considers the contribution made by ten films directed by women to feature film making. Do these films deal with female experience in a different way than their male-directed counterparts? Are their women characters always presented positively? How do they portray male characters and masculine settings? How do they represent (or not represent) sexual behavior and desire? How do they represent violence, poverty, and social restrictions?

Language(s) of Instruction

English
