Course Description

This course examines the damage and recovery efforts following the 2011 Great East Japan Earthquake. Through guest lectures, field trips, and disaster prevention workshops, the class teaches essential disaster prevention and mitigation skills to respond to future disasters effectively. The class also discusses challenges of evacuation center management and the importance of disaster prevention in a multicultural society. The class requires field trips to Ishinomaki City, Minamisanriku Town, and Higahimatushima town areas affected by the disaster.
