Course Description

This course details the key concepts, objectives, and tools of economic policy, with a focus on both national and European contexts. Topics include economic growth, employment, inflation, income distribution, fiscal and monetary policy, trade policy, and environmental sustainability. It explores how governments and institutions design and implement policies to manage the economy, and assess their effectiveness in achieving policy goals. Special attention is given to EU strategies and frameworks such as the European Employment Strategy, the Stability and Growth Pact, and Europe 2020. No prior coursework in economics is required, though a basic understanding of macroeconomic principles is recommended.
