Course Description

This course provides a study of the concepts and methods of analysis of pragmatic theories applied to the Spanish language. It examines the relationship between the use of language and human interactions. Topics include: the place of pragmatics within linguistic disciplines; linguistic meaning and pragmatic interpretation; implication, presupposition, and implicatures; speech, conversational maxims, and the principle of relevance; speech and sentence modalities; speech and intersentential relations; sentence adverbials; reference mechanisms in Spanish; theories of linguistic politeness; pragmatic approaches to metaphor and irony.
