COURSE DETAIL

PALEOECOLOGY - RECONSTRUCTING PAST ENVIRONMENTS
Country Ireland
Host Institution University of Galway
Program(s) University of Galway
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Archaeology
UCEAP Course Number 118
UCEAP Course Suffix
UCEAP Official Title PALEOECOLOGY - RECONSTRUCTING PAST ENVIRONMENTS
UCEAP Transcript Title PALEOECOLOGY
UCEAP Quarter Units 5.00
UCEAP Semester Units 3.30

Course Description

The Irish landscape as we know today is governed by what has happened in the past. Both climate change and anthropogenic factors have played significant roles in shaping the development of the landscape. The objective of this course is to introduce the student to paleoenvironmental methods, in particular pollen analysis, as a means of interpreting the past 15,000 years of vegetation and environmental change in Ireland.

Language(s) of Instruction
English
