| **UCEAP Quarter Units**<br>6.00 |
| **UCEAP Semester Units**<br>4.00 |

**Course Description**

This course provides an overview of what characterizes the field of the sociology of consumption, both in terms of the different main theoretical perspectives (e.g. consumer culture theory and practice theories), in terms of the multiplicity of themes (e.g. political consumption and media-consumption), and in terms of current discussions (e.g. representation of materiality). Students make a theoretical and empirically based analysis of a current consumption phenomenon of their choice.

**Language(s) of Instruction**
English
