PLANT BIODIVERSITY

**UCEAP Quarter Units**

5.00

**UCEAP Semester Units**

3.30

## Course Description

This course discusses the historical, ecological, geographical, evolutionary, and anthropogenic context for plant biodiversity in the Mediterranean Basin. It examines the richness of plant species in the different regions and environments of the Iberian Peninsula. This course also explores plant taxa, useful tools for differentiating botanical groups, as well as preparation of flora inventories, vegetation inventories, biogeographical analyses, technical reports, etc.

## Language(s) of Instruction

Spanish

## Host Institution Course Number

801385

## Host Institution Course Title

ANÁLISIS DE LA BIODIVERSIDAD VEGETAL

## Host Institution Course Details

<https://web.bioucm.es/guiasdocentes&asigp=26>

## Host Institution Campus

MONCLOA

## Host Institution Faculty

Facultad de Ciencias Biológicas

## Host Institution Degree

GRADO EN BIOLOGÍA

## Host Institution Department

Departamento de Biodiversidad, Ecología y Evolución

## Course Last Reviewed

2025-2026
