3.30

Course Description

This course focuses on the interdisciplinary studies fields of public and global health, especially the contribution made to them by social sciences like political economy and medical sociology. The course addresses how our health is shaped by factors such as class, gender, race, profit-seeking behavior, climate change, and technology; it also questions what constitutes "medicine" and what role it plays in society, and how health policy shapes and is shaped by these considerations.

Language(s) of Instruction
