UCEAP Transcript Title LABOR ECONOMICS
UCEAP Quarter Units 10.00
UCEAP Semester Units 6.70

Course Description

This course presents key theoretical models and related empirical evidence that shape our understanding of how labor markets work. The focus is mostly on the micro-level and the lectures build around the evidence provided by the most recent empirical research in the field. The following topics are typically covered: introduction to labor economics, labor supply, labor demand, labor market equilibrium, human capital, migration, labor market discrimination, and unemployment.
