Course Description

This course introduces the fundamental concepts in Chinese medicine to provide a general understanding of the basic theories, working principles, methods for health preservation and disease healing in Chinese medicine. The course comprises an introduction to the five key areas in Chinese medicine including the basic theories of Chinese medicine, methods of diagnosis and treatment, acupuncture and moxibustion, Chinese medicinal materials, and Chinese herbal formulary. This course features a half-day visit to the Chinese Medicine Clinical Research and Services Centre, TWGHs Kwong Wah Hospital–The Chinese University of Hong Kong, where Chinese medicine is being practiced in a contemporary context.
