

COURSE DETAIL

MICROBIOLOGY AND IMMUNOLOGY 2

Country

United Kingdom - Scotland

Host Institution

University of Glasgow

Program(s)

University of Glasgow

UCEAP Course Level

Upper Division

UCEAP Subject Area(s)

Biological Sciences

UCEAP Course Number

122

UCEAP Course Suffix**UCEAP Official Title**

MICROBIOLOGY AND IMMUNOLOGY 2

UCEAP Transcript Title

MICROBIO&IMMUNLGY 2

UCEAP Quarter Units

12.00

UCEAP Semester Units

8.00

Course Description

This course provides an overview of microbiology and immunology, ranging from microbes in diverse environments to the cells and molecules that make up the immune system, and how these act in health and disease. Students have the opportunity to explore the wider context in which microorganisms exist as microbial communities, followed by a focus on core molecular and cellular principles of both microbiology and immunology. Students learn how infectious agents combat host immune defenses and how aberrations in the immune response can lead to disease.

Language(s) of Instruction

English
