DISEASE IN NATURE

UCEAP Transcript Title

DISEASE IN NATURE

UCEAP Quarter Units

4.00

UCEAP Semester Units

2.70

Course Description

The course introduces host-pathogen interactions and disease as general ecological phenomena that extend far beyond the clinical/ biomedical context and have considerable relevance for agriculture and conservation. It fosters active, self-paced, independent learning in a blended course that is delivered online, with optional face-to-face workshop sessions and ample online support. It is assessed entirely by coursework to promote the development of skills that are relevant for authentic professional work.
