UCEAP Transcript Title

MARINE ARCHAEOLOGY

UCEAP Quarter Units

8.00

UCEAP Semester Units

5.30

Course Description

This course provides a broad introduction to Marine Archaeology and illustrates through a series of case studies how crucial the sea was in terms of human development. The social, economic, and cultural progress of humanity has always been closely connected to the water and the sea. From the spread of human groups in early prehistory to the importance of container shipping and maritime commerce to modern economies today, sea travel has remained central to the development and maintenance of human societies.
