

COURSE DETAIL

PROTEIN STRUCTURE AND FUNCTION

Country

United Kingdom - England

Host Institution

King's College London

Program(s)

King's College London

UCEAP Course Level

Upper Division

UCEAP Subject Area(s)

Biochemistry

UCEAP Course Number

121

UCEAP Course Suffix**UCEAP Official Title**

PROTEIN STRUCTURE AND FUNCTION

UCEAP Transcript Title

PROTEIN STRCT&FNCTN

UCEAP Quarter Units

6.00

UCEAP Semester Units

4.00

Course Description

This course provides an account of structure-function relationships in proteins. To understand the molecular bases of biological function of proteins. Fundamental aspects of structural biology and protein chemistry are explained, with an emphasis on the relationship to biological function. Students are expected to have already a good understanding of biochemistry and chemistry and a basic understanding of protein structure.

Language(s) of Instruction

English
