UCEAP Semester Units

3.00

Course Description

Money is not just an economic tool: it is a form of power shaped by law. This course uncovers how the legal architecture underpinning the euro structures monetary policy, markets, and sovereignty. By analyzing the design of the Eurosystem and the role of the ECB, students learn to see monetary law as a crucial arena in which the dynamics of integration, power, and inequality are structured and contested. Combining legal analysis with political economy and history, the course equips future policymakers to think (critically) about monetary governance.
