108

UCEAP Course Suffix

Y

UCEAP Official Title

SUSTAINABLE DEVELOPMENT

UCEAP Transcript Title

SUSTAINABLE DEVELOP

UCEAP Quarter Units

12.00

UCEAP Semester Units

8.00

Course Description

Studying sustainable development today means recognizing the urgency of social and environmental problems facing current and future generations across the world. Students explore the relationship between human lives and the environment, debate what human "development" and "sustainability" mean, and discuss how to understand these complex and flexible concepts together. The first term focuses on understanding current and historical challenges for sustainable development, and the second term looks more closely at sustainable development programs and proposed solutions.
