Course Description

This course is part of the Laurea Magistrale degree program and is intended for advanced level students. Enrollment is by permission of the instructor. This course, held in English, offers an extremely practical introduction to the essential techniques needed to teach English in a primary school context. The course looks at objectives and the relevant methodology providing many practical examples, with particular reference to skills: speaking, listening, reading and writing, lexical and structural development. Students examine practical play-based activities that can help children learn and reinforce new language, and look at approaches such as the use of storytelling, songs and chants, nursery rhymes, "arts and crafts" and drama.

Above all, the course provides a series of activities that teachers can directly apply in the classroom - enjoyable basic activities to help teachers with their first steps in their new career. Course activities include: workshop and presentation of teaching activities followed by discussion/analysis of various practical activities.
