UCEAP Semester Units

2.00

Course Description

This course investigates human (in)security by examining the state's duty to its citizens, analyzing both the scope of services a government provides and its capacity to reach its people. It also examines the risks to individuals due to the lack of services and/or the limited coverage of existing services. Utilizing examples across healthcare, law enforcement, and education, this course investigates how distinct state governance models approach public issues and how these decisions shape citizens' lives.
