2.00

Course Description

This course explores techniques for "reflecting the space between life and death," using diverse media to record and express one's own and others' experiences and memories, and methods for "sharing" them with others who are spatially and temporally distant. This is examined through comparisons between video and other media such as theater and text, as well as comparisons between information dissemination by public and mass media and individual expressive practices.

Language(s) of Instruction

Japanese
