## Course Description

This course examines the economic problems and policies of those countries that have not yet reached the level of economic well being observed in the western world. Students analyze theories of development and their applications in the real world. Students gain a better understanding of a number of topics that shed light on the development process including: poverty, inequality, migration and employment, education, international trade, the role of the government, rural development, the environment, finance and insurance, and population issues.
